

[3] Paragraph 7.1.1.6

substitute

7.1.1.6 For aerodrome categories 1 and 2:

- (a) for up to 100% of water, a complementary agent may be substituted; and
- (b) for the purpose of such substitution, 1kg of foam-compatible DCP (the ***foam***), equals 1 litre of water for production of foam meeting performance level A.

7.1.1.7 For any aerodrome category after any permitted substitution of complementary agent for water, the substitution ratios must be carefully checked to ensure that foam meets the required performance level.

[4] Paragraph 7.1.2.1

repeal and substitute

7.1.2.1 RESERVED
